

VISION ZERO NETWORK

AN INVITATION TO SUPPORT

Join us to advance Vision Zero across the nation

VISION ZERO NETWORK

TAKING ACTION

The Vision Zero Network helps communities mobilize to address the crisis of 42,000+ traffic deaths a year in this nation. Together, we are stepping up to declare that “Enough is Enough,” recognizing these tragedies as preventable with the right strategies and commitment.

Our goal is safe mobility for all. We convene leaders in the realms of transportation planning & engineering, policy, public health, advocacy, and the private sector to develop and share winning strategies to advance safe, equitable mobility.

We facilitate peer exchanges, share best practices and case studies, measure progress, and promote Vision Zero at conferences and gatherings nationwide. Our webinars, meetings, panels, and hands-on resources are considered the leading sources for the development of Vision Zero in the U.S.

ACHIEVING SUCCESS

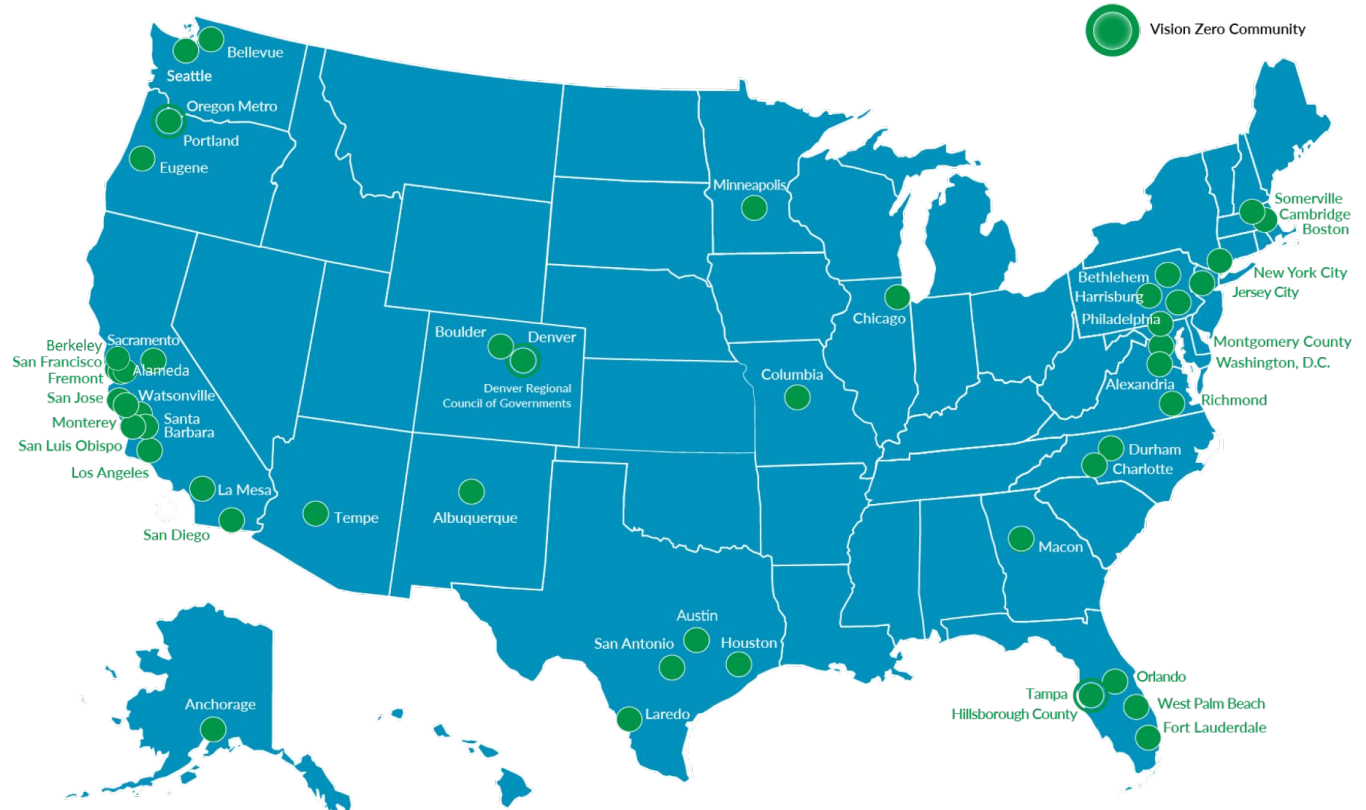

We have helped grow the number of **U.S. cities committing to Vision Zero from just two to more than 45** since our leadership began. From Minneapolis to Macon and Anchorage to Atlanta, communities large and small are re-thinking their approach to traffic safety and committing to change.

Vision Zero Network connects transportation practitioners and leaders to help them reimagine and redesign their transportation systems to prioritize safety. We have supported change in local- and state-level transportation departments, regional health and planning agencies, as well as federal policymaking bodies. We are leaders within the Road to Zero effort to win the first-ever national commitment to zero traffic deaths.

VISION ZERO COMMUNITIES

Your **SUPPORT** of the **VISION ZERO NETWORK** will position you as a leader in the fast-growing Vision Zero movement and provide exposure to thought leaders, implementers, and advocates who are creating policies, designs, technologies, and more to move us to zero traffic deaths.

Thanks to your support, the nonprofit Vision Zero Network will work with more communities setting new policies, practices, and designs to prioritize safety on our roadways, sidewalks, and bikeways nationwide.

Map update: August 2021
